System Setup Guide

1. Introduction

Our practice systems are tailored to meet the specific needs of each course. As a result, each practice system is unique and contains specific technical details. Before you begin working on the exercises for your course, take the time to familiarize yourself with the information provided in this Setup Guide. Follow the instructions outlined in the exercise guide carefully and complete the exercises. The Setup Guide also provides useful information throughout the use of your practice system.

2. Latest Update of This Document (“Change History”)

Latest Update: 2026-03-06

3. System Landscape And Logon Information

To log on to your practice system, please follow the steps explained below.

Note:

We also recommend to visit the [Practice systems support](#) portal.

Once the system is available after enrollment, click the Access button to open the Dashboard of your practice system in the browser. An interface similar to the one shown below should now appear in your browser.

Figure 1: Dashboard

The Dashboard URL is structured as follows:

```
https://xxxxxxxx-xxxx-xxxx-xxxx-xxxxxxxxxxxxx.abap-  
web.xxxx.hana.ondemand.com/ui#Shell-home
```

Copy the first part of this URL from the browser's address bar, up to and including **hana.ondemand.com**. Do not copy the end of the URL (**/ui#Shell-home**). You will need the copied URL later in your development environment to connect to the practice system via an ABAP Cloud project.

Note:

Please make sure you are always using your assigned group number, so you don't interfere with datasets used by another learner.

How to find the Group Number

Click the access button on the practice system details page and you will find your group number displayed beneath the "Get started" header in the pop-up window.

Or go to *My Learning* → *Practice Systems* and choose a practice system. You will find your group number displayed beneath the title of the practice system.

Caution:

To keep the system running smoothly and avoid unnecessary costs, please follow the assigned exercises carefully when using the SAP Landscape. Avoid going beyond the exercise scope and stay within your allocated resources to help maintain a stable and efficient environment for everyone.

4. Additional System Setup Tasks

5. Known System Issues

None so far.

6. Additional Hints And Tips For Exercises of This Course

All templates and model solutions mentioned in the exercises are located in package **/LRN/S4D401_EXERCISE**.

Caution:

Only one learning system can be accessed at a time.

7. Global Learning System Support

1. Go to SAP User Support Center <https://support.learning.sap.com/#>.
2. Click *Contact Us* at the bottom of the page.
3. Click on *Create Case*.
4. Briefly describe your issue in the *Subject* field.
5. Click on the *Service Category* drop-down and select *Practice Systems*.
6. In the *Description*, copy and paste the text for **Self-paced Learners** in the box below.
7. Fill in the text with the necessary information about the issue.

-
8. Attach the screenshot of the issue if available (max 20MB). Click the option *choose a file or drag and drop*. Hit *Upload* when the file has been chosen.
 9. Click *Submit*.
