

Curriculum Vitae

KAYATHRI M

Personal Details

Name	Tharaneeshwar S
Designation	Senior Analyst A5
Birth Date	24/12/2003
Nationality	Indian
Marital Status	Single
Gender	Male
Passport Details	Y1699520
Country	India

Profile

SAP UI5/Fiori Developer trained in building and enhancing enterprise applications using SAPUI5, OData service and Fiori guidelines. Capable of understanding existing applications, debugging issues, and implementing enhancements. Ready to work in support or development projects.

Designation	Sr. Analyst A5
BU	PBS
DOJ	8th July 2025
Service Line	SAP PBS

Competencies

Languages	JavaScript, HTML5, CSS3, XML, Java, C
Technology	SAP UI5, SAP Fiori, Fiori Elements, OData Services, SAP Gateway, SAP BTP, MVC Architecture, REST APIs
Database	SAP Hana, Basic SQL
Tools	SAP BAS, VS Code, SAP Logon, Git, Postman
Operating System	Windows 10/11

Curriculum Vitae

Skills.

Technical Skills:

- Hands-on experience in SAP UI5 and SAP Fiori application development
- Understanding of MVC architecture in SAPUI5
- Basic experience with OData service consumption(V2/V4)
- Familiar with SAP RAP (RESTful ABAP Programming Model)
- Basic understanding of CDS Views
- Familiar with SAP Business Application Studio (BAS)
- Exposure to SAP GUI (SAP Logon) for backend object exploration

Tools:

- SAP Business Application Studio (BAS)
- SAP Web IDE
- SAP GUI (SAP Logon)
- VS Code
- Git (Basic)

Soft Skills:

- Strong willingness to learn and adapt to new technologies
- Good Analytical and Problem-solving skills
- Effective verbal and written communication
- Quick learner with proactive attitude
- Time management and task prioritization skills

Experience.

Start Date : 07/2025

End Date : 08/2025

Project	Travel App (RAP 100)
Role	SAP UI5 FIORI Trainee
Technology used in project	SAP ABAP, RAP, CDS Views, OData V4, SAP Fiori Elements
Description	SAP RAP Travel Management Application - Developed an end-to-end application using **SAP RAP (ABAP RESTful Application Programming Model). - Created CDS Data Definitions to model Travel business data with semantic annotations. - Implemented Service Definition to expose CDS views with standard CRUD operations. - Configured OData V4 Service Binding to publish the service for UI consumption. - Generated responsive SAP Fiori Elements List Report and Object Page applications. - Built and tested the solution using ABAP in Eclipse (ADT)

Curriculum Vitae

Start Date : 07/2025

End Date : 08/2025

Project	LS4 HANA CRUD Freestyle Application
Role	SAP UI5 FIORI Trainee
Technology used in project	SAP S/4 HANA, SAP UI5, OData, SAP Fiori Launchpad
Description	- Developed a custom SAPUI5 Freestyle application integrated with SAP S/4HANA backend. - Implemented full CRUD (Create, Read, Update, Delete) functionality using OData Deep Entity Services. - Designed and developed XML views and JavaScript controllers for dynamic UI and business logic handling. - Configured OData models and routing in `manifest.json` for seamless frontend-backend integration. - Handled complex parent-child data operations using Deep Entity requests in a single service call. - Implemented data binding, validation, and error handling to ensure smooth user experience. - Tested application locally using Fiori Launchpad Sandbox before deployment. - Deployed the application to SAP Fiori Launchpad and managed transport across Dev → QA → Production environments.

Start Date : 07/2025

End Date : 08/2025

Project	Incident Management (CAP)
Role	SAP UI5 FIORI Trainee
Technology used in project	SAP CAP, SQLite, SAP HANA, SAP BTP (Cloud Foundry)
Description	- Developed an Incident Management application using SAP CAP (Node.js). - Designed data models using CDS and exposed them via OData services with auto-generated CRUD operations. - Built a responsive UI using SAP Fiori Elements (List Report & Object Page). - Implemented custom business logic and role-based authorization. - Tested locally using a launchpad and deployed to SAP BTP (Cloud Foundry) with SAP HANA for production.

Curriculum Vitae

Start Date: 07/2025
End Date: 08/2025

Project	Northwind List Report App Development
Role	SAP UI5 FIORI Trainee
Technology used in project	SAP UI5, OData V2, SAP Fiori Elements
Description	- Developed a metadata-driven SAP Fiori Elements List Report application using the public Northwind OData V2 service. - Implemented XML/EDMX annotations (`UI.LineItem`, `UI.SelectionFields`, `UI.Importance`) to define table columns, filters, and field behavior. - Configured OData data sources and linked local annotations through `manifest.json`. - Set up proxy configuration in `ui5.yaml` to handle CORS and enable seamless local development. - Built the application using UI5 Tooling, following standard SAP Fiori design principles with minimal custom code.

Training/Certification

Trainings	SAP UI5 FIORI
Certification	➤ Certification in Ocean for SAP UI5 Fiori (Technical) ➤ EF Solo Certification ➤ Generative AI ➤ SAPUI5 / Fiori Full stack with TypeScript/JS on BTP RAPM/CAPM

Education.

Degree	Institution	Year	CGPA/Percentage
B.Tech	Sona College of Technology	2021-2025	8.00 CGPA
HLSC	Model School Veerapandi, Salme	2020-2021	75%
SSLC	Govt Boys Hig Secondary School, Attayampatti, Salem.	2019	68.7 %
