

Curriculum Vitae

KAYATHRI M

Tharaneeshwar S

PERSONAL DETAILS

Name	Tharaneeshwar S
Designation	Senior Analyst A5
Birth Date	24/12/2003
Nationality	Indian
Marital Status	Single
Gender	Male
Passport Details	Y1699520
Country	India

PROFILE

SAP UI5/Fiori Developer with hands-on experience in SAP Fiori Elements, SAP CAP Model, OData v4, and SAP HANA Cloud applications. Skilled in CDS data modeling, annotations, business logic implementation, and SAP BTP Cloud Foundry deployment. Experienced in developing enterprise-grade applications using SAP Business Application Studio and integrating backend services with modern SAP Technologies.

Designation	Sr. Analyst A5
BU	PBS
DOJ	8th July 2025
Service Line	SAP PBS

COMPETENCIES.

Languages	JavaScript, HTML5, CSS3, XML
Technology	SAP Fiori Elements, SAPUI5, SAP CAP(Node.js), OData V4/V2, CDS, SAP RAP, SAP BTP Cloud Foundry, MTA Deployment, SAP HANA Cloud, HDI Containers, REST APIs, MVC Architecture
Database	SAP Hana Cloud, SQLite, SQL
Tools	SAP BAS, VS Code, SAP GUI (SAP Logon), Git, Postman, Eclipse (ADT), cf CLI, MTA Build Tool(mbt)
Operating System	Windows 10/11

Curriculum Vitae

SKILLS

Technical Skills:

Frontend: SAP Fiori Elements, SAPUI5, HTML5, CSS3, JavaScript, XML

Backend: SAP CAP(Node.js), CDS Views, OData V2/V4, REST APIs

SAP BTP: SAP HANA Cloud, MTA Deployment, SAP Approuter

Tools: BAS, Eclipse ADT, Git, Postman, VS Code, CF CLI, SAP BTP

Soft Skills: Problem Solving, Communication, Team Collaboration, Analytical Thinking

EXPERIENCE

Project	Equinor ADM
Role	SAP UI5/Fiori Developer - Shadow
Start and End Date	23/02/025 - Present
Technical Knowledge gained from this project	SAP UI5, SAP Fiori Elements, JavaScript (ES6), HTML5, CSS3, OData V2/V4, SAP Gateway, CDS Views, SAP Business Application Studio (BAS), Web IDE, MVC Architecture, Data Binding, Routing & Navigation, Git (Version Control), JSON, XML

Curriculum Vitae

PROJECTS

Application Live Link: [Employee Management](#)

Project	Employee Management Application
Technology used in project	SAP CAP (Node.js), SAP Fiori Elements, CDS Views, Annotations, OData V4, SAP HANA Cloud, SAP BTP Cloud Foundry, SAP BAS, SAP UI5, SAP Approuter, Git
Description	- Developed a full-stack Employee Management application using SAP CAP Model and SAP Fiori Elements on SAP BTP. - Designed CDS data models and implemented OData V4 draft-enabled services with complete CRUD operations for Employee and Department entities. - Configured Fiori Elements List Report and Object page using CDS annotations such as UI.LineItem, UI.FieldGroup, UI.SelectionFields and UI.Facets. - Implemented business logic, validations and auto-generated Employee ID functionality using CAP services handlers in Node.js. - Integrated SAP HANA Cloud database with HDO containers and deployed the application using SAP BAS, MTA build tools and SAP Approuter.

Project	Travel App (RAP 100)
Technology used in project	SAP ABAP, RAP, CDS Views, OData V4, SAP Fiori Elements
Description	SAP RAP Travel Management Application - Developed an end-to-end application using SAP RAP (ABAP RESTful Application Programming Model). - Created CDS Data Definitions to model Travel business data with semantic annotations. - Implemented Service Definition to expose CDS views with standard CRUD operations. - Configured OData V4 Service Binding to publish the service for UI consumption. - Generated responsive SAP Fiori Elements List Report and Object Page applications. - Built and tested the solution using ABAP in Eclipse (ADT)

Curriculum Vitae

Project	Incident Management (CAP)
Technology used in project	SAP CAP, SQLite, SAP HANA, SAP BTP (Cloud Foundry)
Description	- Developed an Incident Management application using SAP CAP (Node.js). - Designed data models using CDS and exposed them via OData services with auto-generated CRUD operations. - Built a responsive UI using SAP Fiori Elements (List Report & Object Page). - Implemented custom business logic and role-based authorization. - Tested locally using a launchpad and deployed to SAP BTP (Cloud Foundry) with SAP HANA for production.

Project	Northwind List Report App Development
Technology used in project	SAP UI5, OData V2, SAP Fiori Elements
Description	- Developed a metadata-driven SAP Fiori Elements List Report application using the public Northwind OData V2 service. - Implemented XML/EDMX annotations (`UI.LineItem`, `UI.SelectionFields`, `UI.Importance`) to define table columns, filters, and field behavior. - Configured OData data sources and linked local annotations through `manifest.json`. - Set up proxy configuration in `ui5.yaml` to handle CORS and enable seamless local development. - Built the application using UI5 Tooling, following standard SAP Fiori design principles with minimal custom code.

Curriculum Vitae

TRAINING/ CERTIFICATIONS

Trainings	SAP UI5/FIORI
Certification	➤ SAP Certified Development Associate- SAP Fiori Application Developer Certification Link: https://www.credly.com/badges/09995fd4-e63c-416c-b5ee-a8e811191a07/public_url ➤ SAP Certified - Backend Developer - SAP Cloud Application Programming Model Certification link: https://www.credly.com/badges/24621a13-2111-43c3-ba10-b82a5ef42991/public_url ➤ SAP-FIORI-A3:A5-Practitioner ➤ SAPUI5 / Fiori Full stack with TypeScript/JS on BTP CAPM

EDUCATION

Degree	Institution	Year
B. Tech	Sona College of Technology	2021-2025
HLSC	Model School Veerapandi, Salme	2020-2021
SSLC	Govt Boys Hig Secondary School, Attayampatti, Salem.	2019
